Project Highlights

4,000 SF HOME + GUEST QUARTERS

The goal of this remodel was to increase the functionality of the home for this family of five while preserving the vintage charm and architectural details of the 4,000 square foot English Country Cottage.

The biggest structural change was to create a new primary suite by removing a staircase that led from the family room to the bonus space on the upper level. The bonus space was converted to a primary bedroom adding a new closet, relocating a door, and creating a new ensuite bathroom.

Highlights of the remodel include refinishing the office in a stunning robin's egg blue lacquered paint on all four walls, built-in shelving, and the ceiling. The adjacent hallway received unique wallpaper and light fixtures, and the powder room was completely redone with penny tile, vintage-style fixtures, and wallpaper. Almost every room in the home received upgraded lighting, paint, and finishes, as well as upgrades to make the home more functional.

Partners

ARCHITECT: Native Son Design Studio
DESIGNER: Elizabeth Vallino Interiors
PHOTOGRAPHY: Jim Bartsch

A former gym space above the garage was converted to a guest quarters complete with a kitchenette, built in storage, and a vintage-inspired bathroom.
