"Not only did [Allen] take very good care of our home with excellent craftsmanship, they made sure we were involved throughout the process with great communication and attention to detail. We couldn't be happier with the end result!"

- Shauna and Brad W. - Clients

Project Highlights

1,829 SF HISTORIC BEACH HOUSE

This home, located steps from the beach, had not been remodeled since the mid-50's. The owners wanted to update both the interior and exterior to create space for their young family, as well as space for indoor-outdoor entertaining.

The whole-house remodel included a new open floor-plan in the living room, kitchen and family room as well as updated finishes in the four bedrooms and two bathrooms. The exterior was updated with new siding, doors, and windows.

Unique features of this historic beach house include a sixteen-foot glass wall in the living room that opens up to a new outdoor entertaining deck and a bank of sliding windows opening the kitchen to the outdoor bar area.
