"Awesome. Tasteful! I could live in this house. Bravo!"

- National Association of the Remodeling Industry
Contractor of the Year Judge

Project Highlights

2,559 SF HOME

697 SF GUEST-HOUSE

818 SF WORKSHOP

This remodel preserved the house's mid-century modern sensibility while improving its shell. The roof-line was changed from a steep gable to a butterfly form, which became a unifying theme for the house, guest-house, and workshop.

Updated finish elements added a touch of style. Green was the order of the day, from reclaimed mahogany accents, to solar and high-efficiency heating, cooling, and plumbing systems, to drought tolerant native landscaping.
